

THE ALL-ROUND SERVICE FOR WELDING AND METAL COMPANIES

Steel for you - experts who combine theory and practice:

- Global production and assembly supervision
- Component and final inspection
- Consulting services in plant construction, operators, planners and installers
- External welding supervision EN ISO 14731
- Development and introduction of practical quality systems
- Development and introduction of factory production control
- Trainings for production, welding technology and installation (internal/external)
- Trainings for constructors, planners, project managers (internal/external)
- Global supplier auditing and evaluation
- CE-Management in sector machinery directive, construction products regulation and pressure equipment directive
- Inspections of welding machines according to EN ISO 17662 or OVE EN 60974-14 and according to OVE EN 60974-4
- Safety checks of electronic devices according to OVE EN 8701-2

Steel for you GmbH
Anton Lehmannsgasse 11/1
8042 Graz, Austria
Tel.: +43 316 42 22 90
office@steelforyou.at

SteelCERT as accredited Inspection, Testing, and Certification Body:

- Welder and user certification according to EN ISO 9606 or EN ISO 14732, rebar welding according to EN ISO 17660 and for friction stir welding according to EN ISO 25239
- Brazing solder certification ISO 13585
- Procedure tests according to AD2000, EN ISO 15610, EN ISO 15613, EN ISO 15614, EN ISO 17660 for stud welding according to EN ISO 14555, for brazing processes according to EN 13134, for friction stir welding according to EN ISO 25239 and for refrigeration systems according to EN 14276
- Qualification of thermal Cutting process according to EN ISO 9013
- Certification according to EN 1090-1 Steel and aluminum structures
- Certification according to EN 15085 Welding in rail vehicle construction
- Certification according to EN ISO 3834 General quality system for fusion welding
- Certification according to EN ISO 17660 Welding of rebar
- Non-destructive tests: VT, PT, MT, UT, RT
- Destructive tests: tensile, fracture, bending and hardness tests, metallography
- Approval of unfired pressure vessels, piping and refrigeration systems according to DDGV
- Inspection of containers, Piping and refrigeration systems according to DGUV-V

SteelCERT GmbH
Autal 55
8301 Lassnitzhoehe / Graz, Austria
Tel.: +43 316 27 12 75

Easy Online-Portal for welding and metal industry:

- Administration of welding products, electronic prolongation, measuring equipment, welding machines and inventory
- Administration of temporary welding staff including certifications and qualifications
- Administration of the complete QM-manual including instructions and templates
- Administration of standards and regulations
- Creating of WPS including WPQR-classification
- Order and project documentation
- Easily generate CE marking
- Professional search function when entering welded connections
- High data security
- Automatic reminder by e-mail for all fields
- Web based → no local installation needed!

SteelSOFT GmbH
Autal 55
8301 Lassnitzhoehe / Graz, Austria

Dipl.-HTL-Ing.
Friedrich Felber

Judicially sworn and certified expert for:

- Failure analysis
- General welding work
- Locksmith and blacksmith work
- Corrosion, corrosion protection
- Metallurgical technology
- Aluminium and non-ferrous metal
- Execution of steel structures according to EN 1090
- Welding of reinforcing steel according to EN ISO 17660
- Welding in the construction of railway vehicles according to EN 15085
- CE marking of pressure equipment
- CE marking of construction products
- CE marking of machinery
